GET TO KNOW YOUR LOCALLY OWNED AUTO PARTS STORE FOR THE BEST IN... Hometown Service

July 12, 2009

My husband and I live in Northern Kentucky. On the 4th of July weekend we were invited to spend the week at our friend's cabin in Reading, Michigan. We drove our three Model A Shays the 250 miles from our homes in northern Kentucky to Reading, Michigan. We enjoyed the week driving to museums, flea markets, antique stores and eating at your many local restaurants. On Friday, July 10 our Model A Shay began to have some problems. About 1:00 p.m. we knew that we really had a serious problem and were trying to get our car back to the cabin at Bear Lake when we came upon Performance Automotive at 49 Olds Street in Jonesville.

We pulled into the automotive store and took the wheel off of our car only to find out that the wheel bearing had come apart. While we were taking the wheel off Rob Berger came out of Performance Automotive to see what he could do to help us out. We could not have fixed the car if Rob had not helped. We had to cut the bad pieces off the spindle and replace several pieces. Rob Berger shared his tools, did some machine work for us and made sure we had the correct parts to get our car fixed. We finally finished about 10 minutes before the store was due to close.

Being in your area was a very pleasant experience. We would like to be sure that everyone in the Hillsdale/Jonesville area know how well they will be treated if they stop at the Performance Automotive Store at 49 Olds Street in Jonesville.
